

# A DESIGNED — SPACE

With an emphasis on clever designs and work rooted in creativity, collaboration, and integrity, our mission is to create elevated interiors that enrich your life.

## WHAT WE DO

---

Based in San Diego, we work to achieve timely, on-budget, and beautiful projects with our incredible team, and by partnering with talented local trade professionals and vendors.

## WHO WE ARE

---

We specialize in a unique look and feel that leans on colorways and texture found in nature, and a design style that plays to opposites, blending modern with vintage, refined ease amidst artistic surroundings. Whatever your project, A Designed Space is focused on superior client service and will go the extra mile to bring your design goals to life.

# T H E T E A M

**Marea Riedler**  
*Founder - Principal Designer*

**Megan Quillen**  
*Interior Designer*

**Margot Pourvahidi**  
*Interior Designer*

With over 13 years of industry experience, Marea has learned that working with a strong team is essential for the best outcomes and ensuring a fun process! Her work has ranged in scope from designing custom homes with clients, consulting on master plan communities, and designing model homes with builders, to selecting restaurant furniture for restaurateurs and developers. Whether it's a place to live, work or visit, A Designed Space understands how these environments affect our lives and their impact on us daily.

## SERVICES

At ADS, our goal is to have successful outcomes throughout the project. This includes setting project goals, the design process, and the design. We have found our 3-phase process has made the expectations clear throughout the duration of the project and the experience more enjoyable for our clients.

## PROCESS

### *PROJECT INITIATION*

### *RESEARCH, DESIGN, & PRESENTATION*

### *DESIGN/ PROJECT MANAGEMENT*

#### PHASE 1.

Meet with the client to understand their requirements, preferences, and project scope. Visit the project site, take measurements, and photographs, and create an inventory of existing items. Establish a contract or agreement with the client and formally initiate the project.

#### PHASE 2.

Coordinate with relevant tradespeople or contractors for site assessments, such as electrical or plumbing experts. Create design concepts, develop detailed drawings, and make material and product selections. Present the design concepts and estimates to the client for their approval. Collect any required deposits.

#### PHASE 3.

Place orders for materials, products, and furnishings as per the approved design. Maintain regular communication with the client. Oversee the renovation process, with regular site checks. Install furniture, arrange and style. Reveal completed project to the client, celebrate project milestones, and seek their feedback.
